PROJECTS

Country Delight

- Book your Order from anywhere of your required Materials (Milk, Fruit, vegetables, Juice, etc.)

TrailingCrypto

- It is a Trading Platform and also can convert virtual currency from one to another.

GreenStone, RoyalApoThecary, CannaMobile, WestCost

- These are E-commerce projects. Here we can order various products with multiple address shops.
- I also implement 3rd party integration. eg. chatbox (it is kind of chat box), Berbox (It is for verify user details like, Id card, photo etc.)
- <https://greenstoneretail.com> & <https://royalapotheary.life>

Admins :- Anker Admin, Super Admin

- These all admins are related to above various projects and from here we can Edit product, user details, Track business progress, etc.

Enciser Admin

- It is based on an Electricity Management system, here we can add electricity rates, sites, jobs, Tariff, and can manage complete tracking of user and their product.

Trenddii Admin

- It is a kind of admin where we can create a game in a form of questions and get points to win rewards

ACHIEVEMENTS

Recipient of college's Best Project Award during MCA program.
