## PROJECTS

### TrailingCrypto

- It is a Trading Platform and also can convert virtual currency from one to another.

### GreenStone, RoyalApoThecary, CannaMobile, WestCost !

- These are E-commerce project. Here we can order canbe products with multiple address shop.
- I also implement 3rd party integration. eg. chatbox (it is kind of chat boat ), Berbix ( It is for verify user details like, Id card, photo etc.)
- <https://greenstoneretail.com> & <https://royalapothechary.life>

### Admins :- Anker Admin, Super Admin

- These all admins are related to above canbe projects and from here we can Edit product, user details, Track business progress, etc.

### Enciser Admin

- It is based on an Electricity Management system, here we can add electricity rates , sites , jobs, Tariff, and can manage complete tracking of user and their product.

### Justhomestay.in (03/2024 - 09/2024)

- It is a easy hotel booking application. Owner can add multiple hotel details and can manage dyanamic booking.
- <https://justhomestay.in/>

## ACHIEVEMENTS

Recipient of college's Best Project Award during MCA program.
